

Rockwell Parts

Rockwell Part - The business of AxleTech International is a big supplier of specialty vehicle drive-train systems and components together with off highway vehicles. They take great pride in being a preferred supplier to their customer base. AxleTech strives to meet and exceed their clients' expectations for technology, delivery, quality and service. They believe in working within an atmosphere which supports the highest integrity with empowered collaboration, along with a unrelenting pursuit of results.

AxleTech International falls under the umbrella of General Dynamics. They put great emphasis on being an environmentally conscious business and offering a safe atmosphere for their staff to work in. Moreover, they have implemented a lot of programs in the company to be able to help articulate these values within their business policy. AxleTech happily shares this policy and welcomes interested parties to provide them with any questions or comments, as they are glad to promote and share this policy with a greater understanding of their efforts. They are really dedicated to preserving and improving the natural world. AxleTech has an EHS program that not only protects the natural environment but which also actively protects their neighbors and workers as well.

AxleTech prides themselves as being a ground-breaking drive-train solutions provider. They specialize in designing and manufacturing planetary axles used for both military and commercial applications. These applications range from construction equipment to airport ground support. AxleTech particularly designs axles in order to meet certain application demands. They have over one thousand various axle specs in their current offering. With over one hundred years of knowledge and history, AxleTech proudly supplies the most complete solution for whatever of your axle requirements. The company is well known in various military and commercial applications. They provide complete axle assemblies utilized for aftermarket replacement requirements, together with servicing axle requirements for OE production. Their high mobility ISAS have extra details that can be seen in the "ISAS" product collection.
