

## Clark Forklift Part

Clark Forklift Parts - Presently, there are at least 350,000 Clark lift trucks performing worldwide, and upwards of 250,000 operating in North America alone. With five major lines across the globe, Clark is proud to be one of the most expansive companies in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gas, LPG, hand-driven trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift has 20 exclusive brands of lift trucks, with parts covering more than 120,000 specialized components for all of its automated equipment. Your local Clark Seller is your total source for availability of all your parts requirements provided by Clark Totalift.

Clark's phenomenal Parts Distribution Stores are conveniently located in Louisville, Kentucky, which serves both their customers and sellers in North America, and Changwon, South Korea, which handles their Asian sellers and consumers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing companies. Driven to provide the highest level of value and service to our users, Clark remains on the cutting edge when it comes to improving productivity and benefiting performance.

Clark Totalift has a very impressive international support network. With over 550 locations globally, seller representation in over 80 countries and 230 locations in North America, their high level of commitment to their customers predominates the materials handling market.

Clark proudly remains an progressive leader of the industrial equipment industry, pioneering safety features such as the operator restraint system. This exceptional commitment to safety is currently a customary feature on every lift truck.

Clark's recurrent goal to have the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first forklift maker across the globe to be certified with the internationally accepted quality standard ISO 9001 for every one of their production plants. Furthermore, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be ready for any environmental limitations, thus placing them in a dominant industry position.

Clark has chosen the extremely economical and beneficial system of "Lean Manufacturing" for its assembly plants and application of resources. This system was developed to acknowledge the most effective method of manufacturing facility management and ensuring maximum efficiency. Clark has concluded this transition of its Korean facility. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and manufacturing efficiencies.

By working in concert, Clark's product suppliers and engineers communicate towards improving product proficiency while minimizing costs. The contemporary value engineering program combines modern product development and provides improved client support and service within the industry.
