

## Meritor Part

Meritor Parts - The Meritor Business is a premier international supplier built upon one hundred years of custom of service and quality. Meritor specializes in integrated systems along with different modules and components to the original equipment makers and aftermarket equipment within the transportation and industrial sectors.

Meritor prides itself in the company's unique energy and believes that this particular energy contributes to their competitive advantage within the global operations. The business values their clients and wishes to ensure their success while anticipating their different requirements. Meritor starts with a tradition which values diversity of people and their broad thought processes. Operating in 19 nations and hiring over 11,200 individuals, Meritor encourages innovation and collaboration amongst a team of experienced experts.

Meritor strongly believes in just hiring future focused people. These top-caliber individuals could quickly adapt to changing environments and freely demonstrate the level of commitment and performance considered necessary to be able to attain results for the competitive market environment. The company empowers their teams to make sound business decisions so as to improve the overall success of the company. In return, Meritor provides their workers different chances for professional and personal growth.

The Advanced Engineering team is on the forefront of systems engineering and components. This comprises axles, drivelines, braking and suspension systems intended for medium and heavy duty trucks, buses, military vehicles, trailers and off-highway vehicles. The Meritor Advanced Engineering team is developing. They opened a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives which represent the entire Asia Pacific region. This team is also responsible for supporting the needs of their global engineering personnel.

The Quality team at Meritor is a dynamic and customer-focused group which is committed to ensuring optimum growth at their aftermarket distribution facilities and production plant that are situated on 5 continents and in 19 nations.

They have their supplier network that is specially located so as to support the development of the business. Each regional team has internationally supported initiatives, quality systems and centralized in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program encourages a data-driven, fact-based approach to decision making in each aspect of the business. The DFSS or Design for Six Sigma ensures product reliability within each and every region. The team is even included transactional Green Belts who apply Six Sigma tools to business processes and apply lean techniques.
